

The SOLCISTIUM Service

An Envidable Pedigree in Innovation

SOLCISTIUM is a Workforce Management Company which has supported Blue Chip clients for many years. 10 years ago we pioneered the innovative tripartite (Client – Wynnwith – Union) way of working at Airbus, Broughton.

At this prestigious client, we recruited over 5,000 workers and actively managed 1,600 at any one time.

Today **SOLCISTIUM** is active in diverse industry sectors including automotive, electronics and distribution. We have received numerous accolades from a variety of clients – available on request.

Passionate About Success

We are passionate about giving our clients an excellent return on investment by bringing cost savings and productivity gains through excellent workforce management.

SOLCISTIUM will not open branches to satisfy different clients and potentially conflicting demands. Our commitment and dedication to our clients starts with the investment of an on-site team, giving the benefits of:

1. Proactive management of workers thereby achieving low absence and churn rates.
2. A dedicated pool of candidates enabling rapid up-manning or efficient downsizing.
3. Management of daily worker issues freeing up client line managers to focus on their value add.

SOLCISTIUM™ - Best Practice Workforce Management

The Solcistium Service redefines the benchmark for management of a temporary / contingent workforce. So confident are we of the benefits of the Solcistium Service and its associated processes, we are one of the few Recruitment and Workforce Management Companies willing to reduce or even remove the traditional "agency fee" and charge based upon end worker performance.

For more information on how to get the most out of a complementary workforce please visit:
